Re: PRA: General Election, dated December 30, 2020
Demand for Inspection or Production of Public Records Numbers 1-63

Dear Mr. McMillan,

Pursuant to California Public Records Act, please find below the Tulare County Registrar of Voters response to your request dated December 30, 2020. As you may recall, an extension was necessary and timely submitted to you. As such, the County's response was due on or before January 29, 2021.

As you will see below, Tulare County will require special assistance and expertise to extract and compile data that may be responsive to your requests. With respect to those categories of information, please let us know if you would like the County to begin the process of extracting and producing that data. Please note that the County will provide an initial estimate of the cost to extract the data and may require advance payment in connection thereto.

Additionally, some of your requests seek sensitive information security records such that disclosure of the record would reveal vulnerabilities to, or otherwise increase the potential for an attack on, an information technology system of the Tulare County Registrar of Voters and the County of Tulare. As such, the County intends to produce certain policies and procedures that do not reveal vulnerabilities or increase the potential of a cyberattack.

Finally, some of your requests seek confidential voter information. Confidential voter registration information, including voter history, can be applied for and purchased pursuant to Sections 2188 and 2194 of the Election Code, as well as California Code of Regulations, title 2, section 19001, et seq., which among other things, require the submittal of an application form as specified in California Code of Regulations, title 2, section 19008. The application and purchase of voter registration data can also be accomplished through the following link:
