Importance: High

Hi James,

I have uploaded a new set of proofing reports (ver 1b) on the MFT (2020\2020-11-03_Presidential\Proofing Reports). These are in the same format as March. The only one missing is the Elector Group Report, since this is a General there is only one Default Elector Group.

Please let me know if you have any questions.

Regards,

Hi Rakhi,

The reports for this election are formatted different than the ones we received in March. Is there a reason for that? We built proofing reports and processes based on those reports. Can we get the same reports we did in March for this election? I have attached a copy of the reports.

Importance: High

Hi James,

I have uploaded the following proofing reports on the MFT in the “\2020\2020-11-03_Presidential\Proofing Reports” folder. I am also attaching the **Content Authorization form and Checklist** that needs to be filled out, signed, and returned by you at every milestone. This form also gives you a checklist that you can use to proof the following reports.

There are a couple extra reports that I have attached (3 and 6 in the list below) just for your convenience. You can use those list reports for making sure that the Names and Order are what you would like on the reports. See below:

1. District Type Report
2. District Report
3. District List Report - This is the same data only in a list format of all districts. Please confirm the Names and order of the districts, as this is what displays on the SOV.
4. Precinct Report
5. Contests Report
6. Contest List Report – This is the same data only in a list format of all Contests. Please confirm the Names and Order of the same, as this is what displays on all the reports, including the Election Night Summary Report. These are not the Ballot names.
7. Ballot Type Report
8. EDT Export file

Once these reports are approved by you, please sign the 1st page of the authorization form, and send it to me for my records. We will then move to the next checkpoint of Ballot proofing.

Please let me know if you have any problems accessing the files or have any questions.

Hi James,

I have uploaded a new set of proofing reports (ver 1b) on the MFT (2020\2020-11-03_Presidential\Proofing Reports). These are in the same format as March. The only one missing is the Elector Group Report, since this is a General there is only one Default Elector Group.

Please let me know if you have any questions.

Regards,

Hi James,

We are using a standard report profile for all customer projects this time. With that said, I will create the reports again for you and get you another set in the same format as March.

Subject: [EXTERNAL] RE: San Bernardino - General 2020 - Proofing Reports 1

Hi Rakhi,

The reports for this election are formatted different than the ones we received in March. Is there a reason for that? We built proofing reports and processes based on those reports. Can we get the same reports we did in March for this election? I have attached a copy of the reports.

Subject: San Bernardino - General 2020 - Proofing Reports 1

Importance: High

Hi James,

I have uploaded the following proofing reports on the MFT in the “\2020\2020-11-03_Presidential\Proofing Reports” folder. I am also attaching the **Content Authorization form and Checklist** that needs to be filled out, signed, and returned by you at every milestone. This form also gives you a checklist that you can use to proof the following reports. There are a couple extra reports that I have attached (3 and 6 in the list below) just for your convenience. You can use those list reports for making sure that the Names and Order are what you would like on the reports. See below:

1. District Type Report
2. District Report
3. District List Report - This is the same data only in a list format of all districts. Please confirm the Names and order of the districts, as this is what displays on the SOV.
4. Precinct Report
5. Contests Report
6. Contest List Report – This is the same data only in a list format of all Contests. Please confirm the Names and Order of the same, as this is what displays on all the reports, including the Election Night Summary Report. These are not the Ballot names.
7. Ballot Type Report
8. EDT Export file

Once these reports are approved by you, please sign the 1st page of the authorization form, and send it to me for my records. We will then move to the next checkpoint of Ballot proofing.

Please let me know if you have any problems accessing the files or have any questions.

Regards,
