Hi Caleb,

I have uploaded a new set of Sample Ballots (ver 2) on the MFT in the “\2020\2020-11-03\_Presidential\SAMPLE BALLOTS” folder.

I am also attaching the updated **Ballot Card Distribution Report**, as the contest placements have changed and so as the card numbers per Ballot Style.

Please let me know if you have any questions.

Hi James,

Attached are some samples of the Sample Ballots (zip file) with the changes requested. If these look good to you, I can post all the PDFs for you.

Also attached are samples for the 2<sup>nd</sup> requirement of Comprehensive ballots. Please let me know if these are good for you. If yes, then I will get these created for you. Below are comments/updates from the team:

Regarding the 1<sup>st</sup> requirement:

Requested:

1. Remove the boxes that I have crossed off in red. – Removed. The “Sample Ballot” header in grey box for the first card is retained.
2. Increase the font sizes at least up to 3 points more from what they are for all the Candidates, Contests, Headings occupations and prop/measure text.
  - a. Candidate – up to 12 point - done
  - b. Occupations – up to 11 point - done  
Contests – up to 14 point -> 13 points
  - c. Prop / Measure Text – up to 12 point - done  
Headings – up to 14 point -> 13 points
3. Make the ballot single column. Only if the contest is long then go to 2 columns. Its ok to go into multiple pages. Here is what the customer said  
*It is ok to take up multiple pages. We realize that some contested may wrap into a second column, but the standard should be single column.*

There are three contests only that couldn't fit 11in ballot, so they are wrapped into a second column, all the rest are single column.

As mentioned previously, our original idea was the following:

- All candidacy contests to put on the first card -> Due to font enlargement and the number of candidacy contests per ballot type, they couldn't all fit on the first card, so I went through all first ballot cards and moved the contests that were causing issues to the second card.
- Proposition on the second card – First part of the propositions is moved to the third card not to interfere with the candidacy contests. Second part couldn't fit into the ballot size and it's moved further.
- Measures on the third card – Second part of the propositions is moved to the fourth card and grouped along with measures.

In case all candidacy contests of a ballot type do fit on the first card, we don't have second card, just first, third and fourth.

Attached are samples of BT 1.

Regarding the:

2. **Second Requirement** for comprehensive pages
  1. A file that contains all contest on one ballot.
    1. Page size 8.5 x 11
    2. This will be used as a comprehensive sample ballot page in a comprehensive Voter Information Guide.
    3. It will also be used to create facsimile ballots in additional languages to comply with election code 14201

Regarding the placements of the contests on the cards, since there are 172 contest it had to be done partially manually and could place 4 contests per card. We couldn't render more contests on 11in ballot. With this kind of solution, we have some unused space on the cards, however if better usage of space is necessary, it would require another couple days of work.

Please review and let us know. You can find attached PDFs, ballots are divided by languages and all in one as well.

Hi James,

Attached are some samples of the Sample Ballots (zip file) with the changes requested. If these look good to you, I can post all the PDFs for you.

Also attached are samples for the 2<sup>nd</sup> requirement of Comprehensive ballots. Please let me know if these are good for you. If yes, then I will get these created for you. Below are comments/updates from the team:

Regarding the 1<sup>st</sup> requirement:

Requested:

1. Remove the boxes that I have crossed off in red. – Removed. The “Sample Ballot” header in grey box for the first card is retained.
2. Increase the font sizes at least up to 3 points more from what they are for all the Candidates, Contests, Headings occupations and prop/measure text.
  - a. Candidate – up to 12 point - done
  - b. Occupations – up to 11 point - done  
Contests – up to 14 point -> 13 points
  - c. Prop / Measure Text – up to 12 point - done  
Headings – up to 14 point -> 13 points
3. Make the ballot single column. Only if the contest is long then go to 2 columns. Its ok to go into multiple pages. Here is what the customer said  
*It is ok to take up multiple pages. We realize that some contested may wrap into a second column, but the standard should be single column.*

There are three contests only that couldn't fit 11in ballot, so they are wrapped into a second column, all the rest are single column.

As mentioned previously, our original idea was the following:

- All candidacy contests to put on the first card -> Due to font enlargement and the number of candidacy contests per ballot type, they couldn't all fit on the first card, so I went through all first ballot cards and moved the contests that were causing issues to the second card.
- Proposition on the second card – First part of the propositions is moved to the third card not to interfere with the candidacy contests. Second part couldn't fit into the ballot size and it's moved further.
- Measures on the third card – Second part of the propositions is moved to the fourth card and grouped along with measures.

In case all candidacy contests of a ballot type do fit on the first card, we don't have second card, just first, third and fourth.

Attached are samples of BT 1.

Regarding the:

2. **Second Requirement** for comprehensive pages
  1. A file that contains all contest on one ballot.
    1. Page size 8.5 x 11
    2. This will be used as a comprehensive sample ballot page in a comprehensive Voter Information Guide.
    3. It will also be used to create facsimile ballots in additional languages to comply with election code 14201

Regarding the placements of the contests on the cards, since there are 172 contest it had to be done partially manually and could place 4 contests per card. We couldn't render more contests on 11in ballot. With this kind of solution, we have some unused space on the cards, however if better usage of space is necessary, it would require another couple days of work.

Please review and let us know. You can find attached PDFs, ballots are divided by languages and all in one as well.

Hi James,

Attached are some samples of the Sample Ballots (zip file) with the changes requested. If these look good to you, I can post all the PDFs for you.

Also attached are samples for the 2<sup>nd</sup> requirement of Comprehensive ballots. Please let me know if these are good for you. If yes, then I will get these created for you. Below are comments/updates from the team:

Regarding the 1<sup>st</sup> requirement:

Requested:

1. Remove the boxes that I have crossed off in red. – Removed. The “Sample Ballot” header in grey box for the first card is retained.
2. Increase the font sizes at least up to 3 points more from what they are for all the Candidates, Contests, Headings occupations and prop/measure text.
  - a. Candidate – up to 12 point - done
  - b. Occupations – up to 11 point - done  
Contests – up to 14 point -> 13 points
  - c. Prop / Measure Text – up to 12 point - done  
Headings – up to 14 point -> 13 points
3. Make the ballot single column. Only if the contest is long then go to 2 columns. Its ok to go into multiple pages. Here is what the customer said  
*It is ok to take up multiple pages. We realize that some contested may wrap into a second column, but the standard should be single column.*

There are three contests only that couldn't fit 11in ballot, so they are wrapped into a second column, all the rest are single column.

As mentioned previously, our original idea was the following:

- All candidacy contests to put on the first card -> Due to font enlargement and the number of candidacy contests per ballot type, they couldn't all fit on the first card, so I went through all first ballot cards and moved the contests that were causing issues to the second card.
- Proposition on the second card – First part of the propositions is moved to the third card not to interfere with the candidacy contests. Second part couldn't fit into the ballot size and it's moved further.
- Measures on the third card – Second part of the propositions is moved to the fourth card and grouped along with measures.

In case all candidacy contests of a ballot type do fit on the first card, we don't have second card, just first, third and fourth.

Attached are samples of BT 1.

Regarding the:

2. **Second Requirement** for comprehensive pages
  1. A file that contains all contest on one ballot.
    1. Page size 8.5 x 11
    2. This will be used as a comprehensive sample ballot page in a comprehensive Voter Information Guide.
    3. It will also be used to create facsimile ballots in additional languages to comply with election code 14201

Regarding the placements of the contests on the cards, since there are 172 contest it had to be done partially manually and could place 4 contests per card. We couldn't render more contests on 11in ballot. With this kind of solution, we have some unused space on the cards, however if better usage of space is necessary, it would require another couple days of work.

Please review and let us know. You can find attached PDFs, ballots are divided by languages and all in one as well.

Hi Rakhi,

Our team has reviewed the majority of the ballot styles and has come up with the following discrepancies. Please see the attached spreadsheet for details.

If you have time for a call, we can discuss the layout of the spreadsheet (Sheet1 is the list of what is out of order and how to correct it).
