Rakhi,

The log is attached for the ICX proofing. We have not completed all testing yet, but this is what we have so far.

I am waiting for a decision as to how we are going to be expecting our x of y to be used, so I can send that to you, as requested.

After that, there are questions regarding whether the designated mail ballot precinct counting group, that will most likely be used for the x of y, will behave when ballots/precincts that are not in this counting group are attempted to be read into this counting group on the ICC.

Thanks,

Christina Anderson

Subject: SBC - Nov 2019 Consolidated Election - Test Deck

Hi Christina,

I was wondering if you had a chance to proof the tabulator report? I need to generate the Test Deck and I need the tabulators to be final, so that the expected results reports and the deck match up.

Regards,
